Patent Pending

**Three simple
steps to replace
corroded, worn-
out drains.**

*Leave the old strainer
body in the tub. Apply the
adhesive (supplied with the
NuFit™ kit) to its flange.*

*Press the NuFit™ body over
the old strainer body.*

*You're done. A sparkling
new drain with no tools,
no plumbing required.*

The painless way to a brand-new drain.

- Covers strainer body flanges up to 2-7/8 inches in diameter
- PUSH PULL® stopper with excellent clearance for high-flow draining and easy cleaning
- Installs with silicone adhesive (supplied) or optional Watco bonding strip
- Available with one-hole, two-hole, or the Watco Innovator® overflow plate
- The quickest, most economical solution for high-volume installations, or replacing just one or two drains at a time

Choose from Grid Strainer (top) or standard (bottom) strainer bodies.

Available in chrome plated and four special finishes.

Chrome Plated (CP)

Brushed Chrome (CB)

Brushed Nickel (BN)

Polished Brass (PB)

Oil Rubbed Bronze (BZ)

The Watco Bonding Strip makes a fast job even faster. It creates a permanent bond in seconds with no glues, no mess.
