Innovator® Shower Drain

receptor-type drain for pre-formed shower bases

9300-PVC-CP

- Includes Watco **Innovator®** orange test membrane, testable to 22 P.S.I. or five floors. Simply punch out after testing. No more test balls, caps or plugs.
- Includes heavy-duty, snap-on grid—20% thicker than competitive grids.
- Includes E-Z grip installation tabs on top piece and squared-off ribs on bottom receptor for easy tightening and installation.
- Top piece is dark grey PVC to reduce appearance of dirt and mildew. Bottom piece available in white PVC or black ABS.
- Includes green polycarbonate cover to protect grid finish during construction.

- Grid available in six finishes:

Testable. Easy to tighten and install.

Heavy-duty snap-on grid

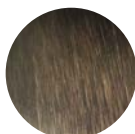

Chrome (CP)

Matte Black (WI)

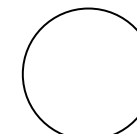

Brushed Nickel (BN)

Oil-Rubbed Bronze (BZ)

Brushed Bronze/
Champagne Bronze (BB)

White (WH)

Patent Pending

Saves time. Saves money.

Fewer parts. Watco quality.
